**NEW BEDFORD
INSTITUTE OF
TECHNOLOGY
YEARBOOK**

1963

“The moving finger writes; and having writ,
Moves on; nor all your piety nor wit
Shall lure it back to cancel half a line,
Nor all your tears wash out a word of it.”

*From Rubaiyat by Omar Khayyam
Translated by Edward Fitzgerald*

Dedication

The Class of 1963 is proud to dedicate this edition of *The Mainstay* to Professor Henry Swift of the Business Administration Department in recognition of his exemplary leadership, both in and out of the classroom.

Professor Swift has instructed his students above and beyond that instruction which may be found in textbooks.

His counsel in academic, public, and private matters has been invaluable.

His patience in the classroom, dedication to learning, and concern for the individual student, together with his outstanding business acumen have earned for him a permanent place in the minds and hearts of his students.

Therefore, it is our privilege to so honor Professor Swift, in this, his year of retirement, and to wish him many more rewarding years.

KAPPA SIGMA PHI SORORITY

The Kappa Sigma Phi Sorority consists of 30 sisters whose purpose is the exchange of knowledge, sincerity, and fraternity. The Sorority was established on the 27th of October, 1943, at the Philadelphia Textile Institute. The official colors are purple and white. Purple representing the high ideals which the Sorority stands for and white representing the purity of purpose. The Sorority also has an official flower, the Iris.

This year's activities consisted of several couple's parties, a raffle, cake sales, assisting the I. S. O. in their Mock U. N., open house for new members, faculty luncheon, faculty-senior class buffet, annual outing, and ski weekend. The sisters found this to be a very active year as well as one in which many new friends were discovered.

The present officers are Jeanne Levesque, President; Carolyn Morin, Vice-President; Jane Booth, Treasurer; Constance Fernandes, Secretary; Mariam Lumba, Discipline Officer.

OPEN HOUSE

NU BETA TAU

Nu Beta Tau Fraternity is the youngest fraternity at New Bedford Tech, having received its charter in 1958. At that time, the charter members realized the need for a purely social fraternity with no professional affiliations. On this basis, Nu Beta Tau was founded.

Nu Beta Tau was the first fraternity in this area to substitute "Help" for "Hell Week" for pledges. This innovation has been well-received both here at school and in the surrounding communities. Non-profit organizations such as St. Mary's Home, the New Bedford Boys' Club, and the Greater New Bedford Chapter for Retarded Children, Inc. have derived the benefits of the pledges' labors during Help Week.

The year 1962 saw four years' efforts fulfilled when a lease was signed for a Fraternity House at 237 Middle Street, New Bedford, Mass.

Social functions sponsored by Nu Beta Tau include the "Pumpkin Prom" held during the Halloween season and many parties held at the fraternity house.

The officers are: Robert F. Oliveira, President; E. William Harding, Vice-President; Ronald Robillard, Secretary; and Carlton Pimental, Treasurer.

CHI DELTA PHI

On March 5, 1963, the second sorority at Tech was officially accepted by the Dean of Students and the Inter-Fraternity Council. Chi Delta Phi was formed to give girls presently attending Tech and girls who will attend Tech in the future an opportunity to choose between two sororities. This will not only affect the selection of pledges, but will also result in a more careful selection of girls who receive bids.

The sorority has chosen pink and white chrysanthemums for their sorority flower and pink and white as its colors.

This year we have had a successful cake sale, car wash, and open house. At the end of the school year, an elaborate banquet and installation ceremony of the members is planned.

DELTA KAPPA PHI

Delta Kappa Phi Fraternity is one of the oldest national fraternities in America. It is listed in the World Almanac and the Blue Book of Professional Fraternities. The brothers of Delta Chapter are matriculating in chemistry, engineering, textile, and business administration courses offered here at the Institute. With campus life limited as it is here at Tech, the student has to turn to a fraternity for the social aspect of college life. D. K. brings into realization this desire of its brothers through the use of its large fraternity house located at 54 Campbell Street.

The purposes of the Fraternity are many. For the school Delta Kappa Phi is a service organization. The Fraternity continually strives to advance the aims and interests of the college through the various projects, services, and activities of its members. For the members the Fraternity is an inspiration to high scholastic achievement by encouraging its members in acquiring a thorough education in the courses of their choice. The fraternity relationships and social enjoyment gained by the members assist in forming the bonds of friendship between men of common interests. By encouraging active participation of the brothers in all school activities, athletics, and other functions, the Fraternity serves to promote a well rounded character development. For the industry the Fraternity functions to furnish professional men of high caliber for executive and managerial responsibilities.

PHI PSI FRATERNITY

Phi Psi Fraternity was founded at the Philadelphia College of Textile Engineering in 1903. The following year "Tech" received its charter and was officially named as Beta Chapter. The primary aims of the fraternity have been to promote good fellowship, high scholastic achievement, and mutual advancement of its members and the art of textile manufacturing. In view of modern technological changes both in management and production methods, recent constitutional amendments have been made whereby non-textile majors are encouraged to join this fraternity when their skills are such that they complement the successful operation of the textile industry.

Phi Psi Fraternity is the largest professional fraternity of its kind with ten active chapters and twelve alumni chapters extending along the Atlantic Coast and the Southwest.

Throughout the year numerous couples and I. F. C. mixer parties are held to round out the members social life. Two "open houses" for prospective new members are held each year and it is at this time that members get to know, evaluate, and consider potential new "brothers" for the new year.

In recognition of high scholastic achievement and student activities participation, Phi Psi takes great pride in awarding its Annual Senior Award to the most outstanding male Senior graduate irregardless of his course, fraternity, or club affiliation.

STUDENT COUNCIL

The Student Council is the most unique of all organizations here at the Institute. Its primary purpose is to formulate student opinion. It also acts as a liaison between the student body and faculty-administration.

The Council is composed of the four class officers from each class. The officers of the Council are elected from its membership. The only restriction to the selection of officers is that whoever is elected president has to have had at least one semester as a member of the Council.

The Student Council receives a \$10 activities fee from each student upon registering. With this money, the Council makes allotments to the four classes and to student organizations desiring financial aid.

The Council sponsors such well known annual functions as the Welcome-Back Banquet and the Farewell Dance. This year they also sponsored a Mock Trial which served as a form of cultural activity for the school.

WELCOME BACK BANQUET

TECH TALK

Since its inauguration, Tech Talk has acted as the central means of communication at the Institute. Now, in its tenth year, the paper has the distinction of being the official student organ of thought.

With student membership numbering in the fifties, Tech Talk looms as one of the largest organizations on the campus.

The paper operates much the same as any small city daily, only on a much smaller scale. It is published eleven times during the academic year and has a circulation of 1100.

Like other college publications, Tech Talk has sought to mold its contents to serve the particular needs of its readers and the locality in which it is published.

The paper is controlled completely by students, and operating funds are derived from the annual student activities fee which is controlled by the Student Council, and advertising.

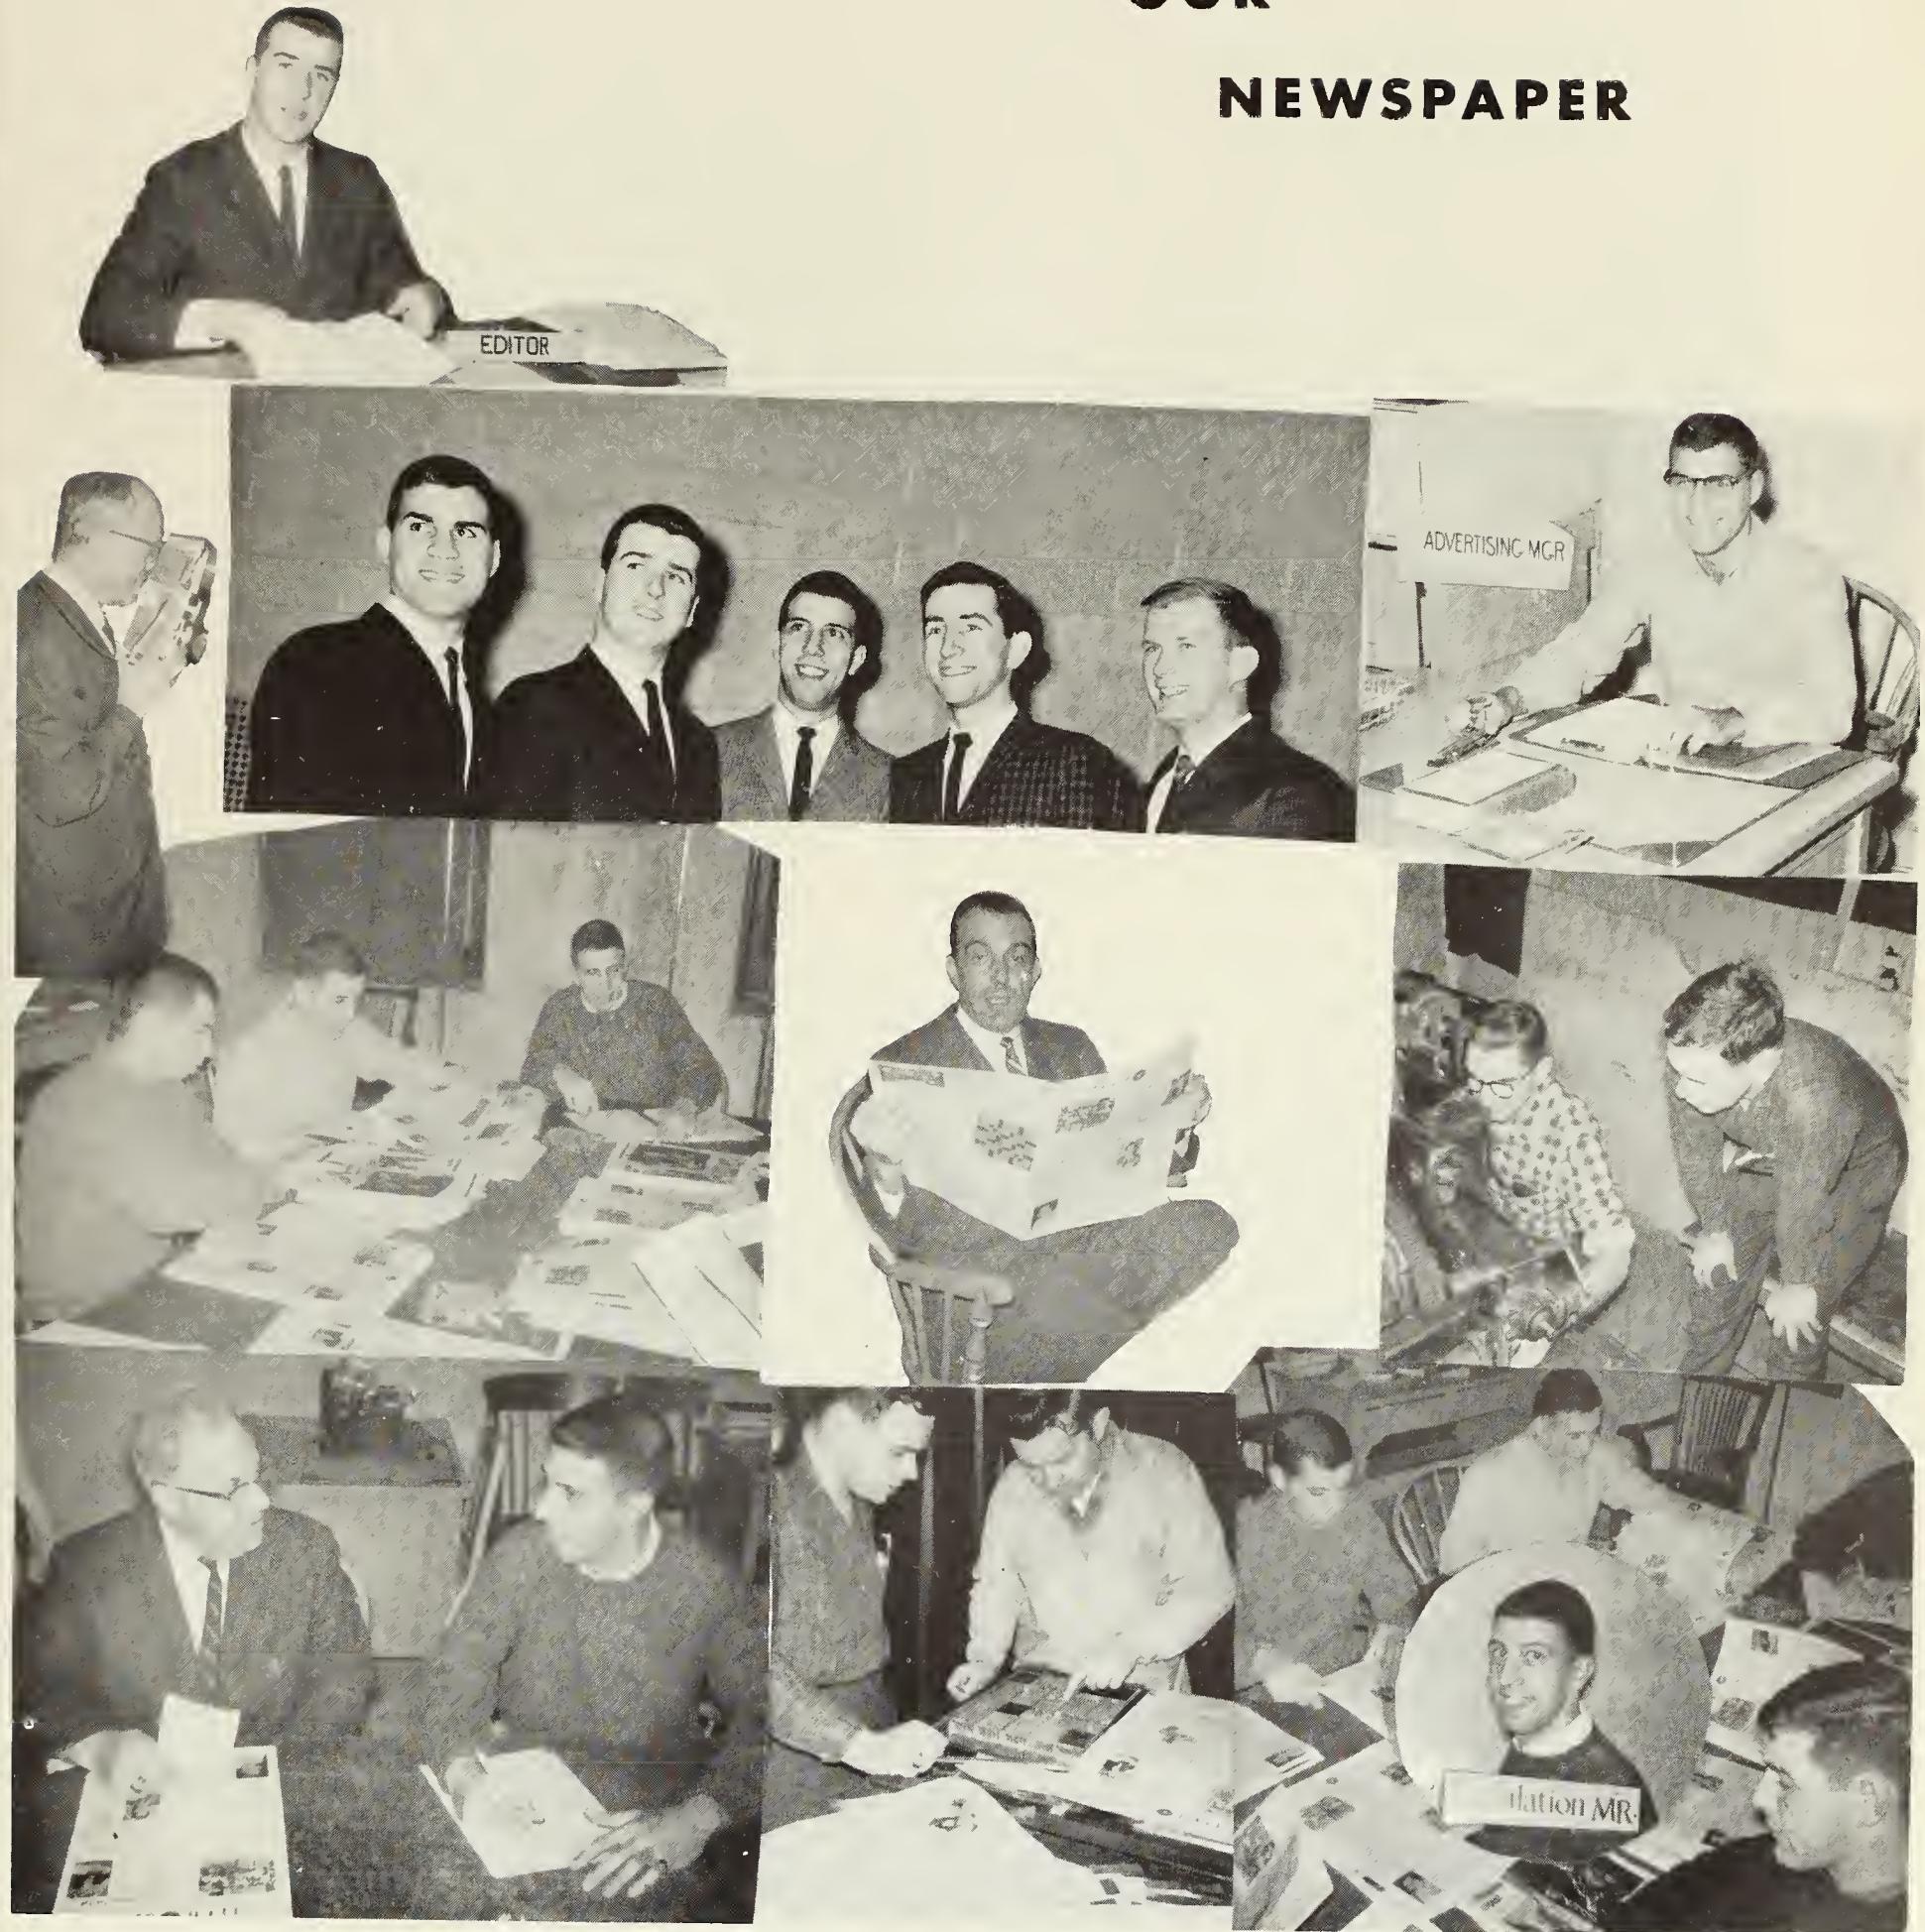

The Administrative Staff for the academic year 1962 - 63 is as follows:

George R. Sullivan Editor-in-Chief
William Mosher Business Manager
Richard Laferriere Advertising Manager
Albert Resendes, Jr. Layout Editor

John F. Trznadel Sports Editor
Betsy Damos Office Manager
Francis Rezendes Circulation Manager
Jotham Myers Art Editor

OUR NEWSPAPER

A. A. T. T.

The objects of the American Association for Textile Technology are to promote interchange of professional knowledge of textile technology among members, to stimulate fraternal intercourse among technologists, to provide means for diffusion of the knowledge of textile technology, and to acquaint the student with the practical workings and future business associates in some branch of the textile industry.

AMERICAN CHEMICAL SOCIETY

The "Chem Club" is made up of student affiliates of the American Chemical Society. It is devoted not only to the academic but also to the professional development and advancement of the chemistry student.

The club's activities include industrial tours and lectures by businessmen, by faculty members, and by graduate students here at the Institute. With the increased enrollment of chemistry students the organization looks forward to even more participation and activity.

AMERICAN ASSOCIATION OF TEXTILE CHEMISTS AND COLORISTS

GLEE CLUB

This group was formed in 1958. Though the members participate in civic affairs during the year, the main performances are given at Tech — the Christmas Program, Class Day Activities, and Commencement Exercises. Many social events are also participated in by the group during the year.

Officers for the current year include Suzanne Amaral, President; Marsha King, Secretary; and Mariam Lumba, Treasurer; with Sylvia Aanensen, Karen Bergquist, Paul Cavanaugh, and Don Diulio on the Executive Council.

BUSINESS MANAGEMENT CLUB

The Business Management Club was formed in May of 1961. The club limits membership to students of Business Administration who are majoring in Management. Its size makes possible informal group discussions, as well as luncheon meetings with local business leaders.

The club was selected to organize and coordinate the activities of the Area Opportunity Employment Conferences in conjunction with the Placement Office and the Department of Business Administration. These conferences were designed to acquaint senior students with area businessmen and the employment possibilities with the State and Federal governments.

National affiliation with the American Management Association is planned.

I. F. C.

The Inter-Fraternity Council was instituted in 1947, when the two fraternities, Delta Kappa Phi and Phi Psi, and the sorority Kappa Sigma Phi realized there was a strong need for a joint governing body to settle any differences that might arise. This year the Council welcomed its newest member, Chi Delta Phi, a local sorority here at Tech.

It is the primary aim of the I. F. C. to promote better relations among all of its members and to ensure cooperation between the sororities and fraternities in their relationship with the faculty, students, and public, in general. President, Roger Ames; Vice-President, Jeanne Levesque; Secretary-Treasurer, Carol Morin.

MECHANICAL ENGINEERING CLUB

The Mechanical Engineering Club was founded for the purpose of furthering the knowledge and education of the Engineering student. Its objectives are to obtain a broader perspective in Engineering; to create a closer relationship between the students and Industry; to attain a closer correlation between theory and practice; and to provide opportunities for Engineering students to participate in social activities. This is accomplished by sponsoring technical sessions, arranging plant tours, attending joint meetings with professional societies, and holding dinner meetings with Industrial representatives as invited guests. The Club officers are President, Ralph Nelson; Vice-President, Daniel Pacheco; Treasurer, Wayne Snell; Secretary, Karl Svendsen.

A. I. E. E. - I. R. E.

The American Institute of Electrical Engineers and the Institute of Radio Engineers, Joint Student Branch, was formed in the spring of 1960. The aims of the Joint Branch are to keep the student engineer abreast of the developments in his field and to further his professional education by sponsoring field trips and providing guest speakers.

INTERNATIONAL STUDENT ORGANIZATION

The International Student Organization was formed in 1960 through the efforts of a group of foreign and American students. Its slogan is "peace and friendship through mutual understanding."

The aims and ideals of this organization are: to promote goodwill and friendship among students from all nations, at Tech as well as in the New Bedford community; to sponsor educational, cultural, social, and athletic events; and to help the incoming foreign students in finding apartments and summer jobs, and in assisting them with any other orientation problems while attending New Bedford Tech.

CIRCLE K

Over the past years, the Circle K Club has been of invaluable service not only to the school but to the community as well. Members of Circle K have served as ushers for various school functions; and in addition, have sponsored such functions as Parents' Night, noontime lectures, and the College-High School Scholarship Basketball Game.

NEWMAN CLUB

Devoted to the furtherance of Catholic education on the college level, the Newman Club, here at Tech, offers the Catholic student a wide insight into Catholic doctrine.

By sponsoring informative lectures relative to the students' interests, the Newman Club strives to maintain and promote interest in the faith.

Two of the largest functions at Tech each year are the annual Communion Breakfast and the Post-Lenten Dance sponsored by the Club.

National in scope, the Newman Club combines spiritual, cultural, and recreational activities to fulfill its basic goals.

PROTESTANT FELLOWSHIP

This group was formed at Tech to promote a spirit of Christian fellowship both within and without the halls of Tech. The group's main functions at Tech are to invite guest speakers, participate in discussions, and attend worship services. Chairman of the group for 1963 is Fred Purrington.

Darn Finals!

She must be kidding.

I found it!!!

Say, what a buy!

But I haven't any money!

CHAMPIONS

LEFT TO RIGHT:

P. Mendell, F. Fletcher, B. Hayden, B. MacNamara, J. Marshall, R. Ames, G. Burke.

Tech's tennis team has captured the tennis championship, in conference play, for the past eleven years. This year should be no exception to the past as no less than fifteen netters are battling it out for singles and doubles berths.

Training hard are many newcomers to the tennis scene such as Bill Butler, Ron Ponte, and Dennis Suprant. If the returning veterans don't get on the wagon soon, they may find themselves on the outside looking in.

Frank Fletcher hasn't lost any of his fine touch that he had last year and once again should be near unbeatable in conference play.

Seafood Contest

Scallop Queen Louise Santos places Seafood Tournament crown on the head of Tech's Carolyn Martin as last year's Tech Queen, Miss Nancy Cairns, hands Carolyn her trophy.

Carolyn Martin Wins Queen's Honors

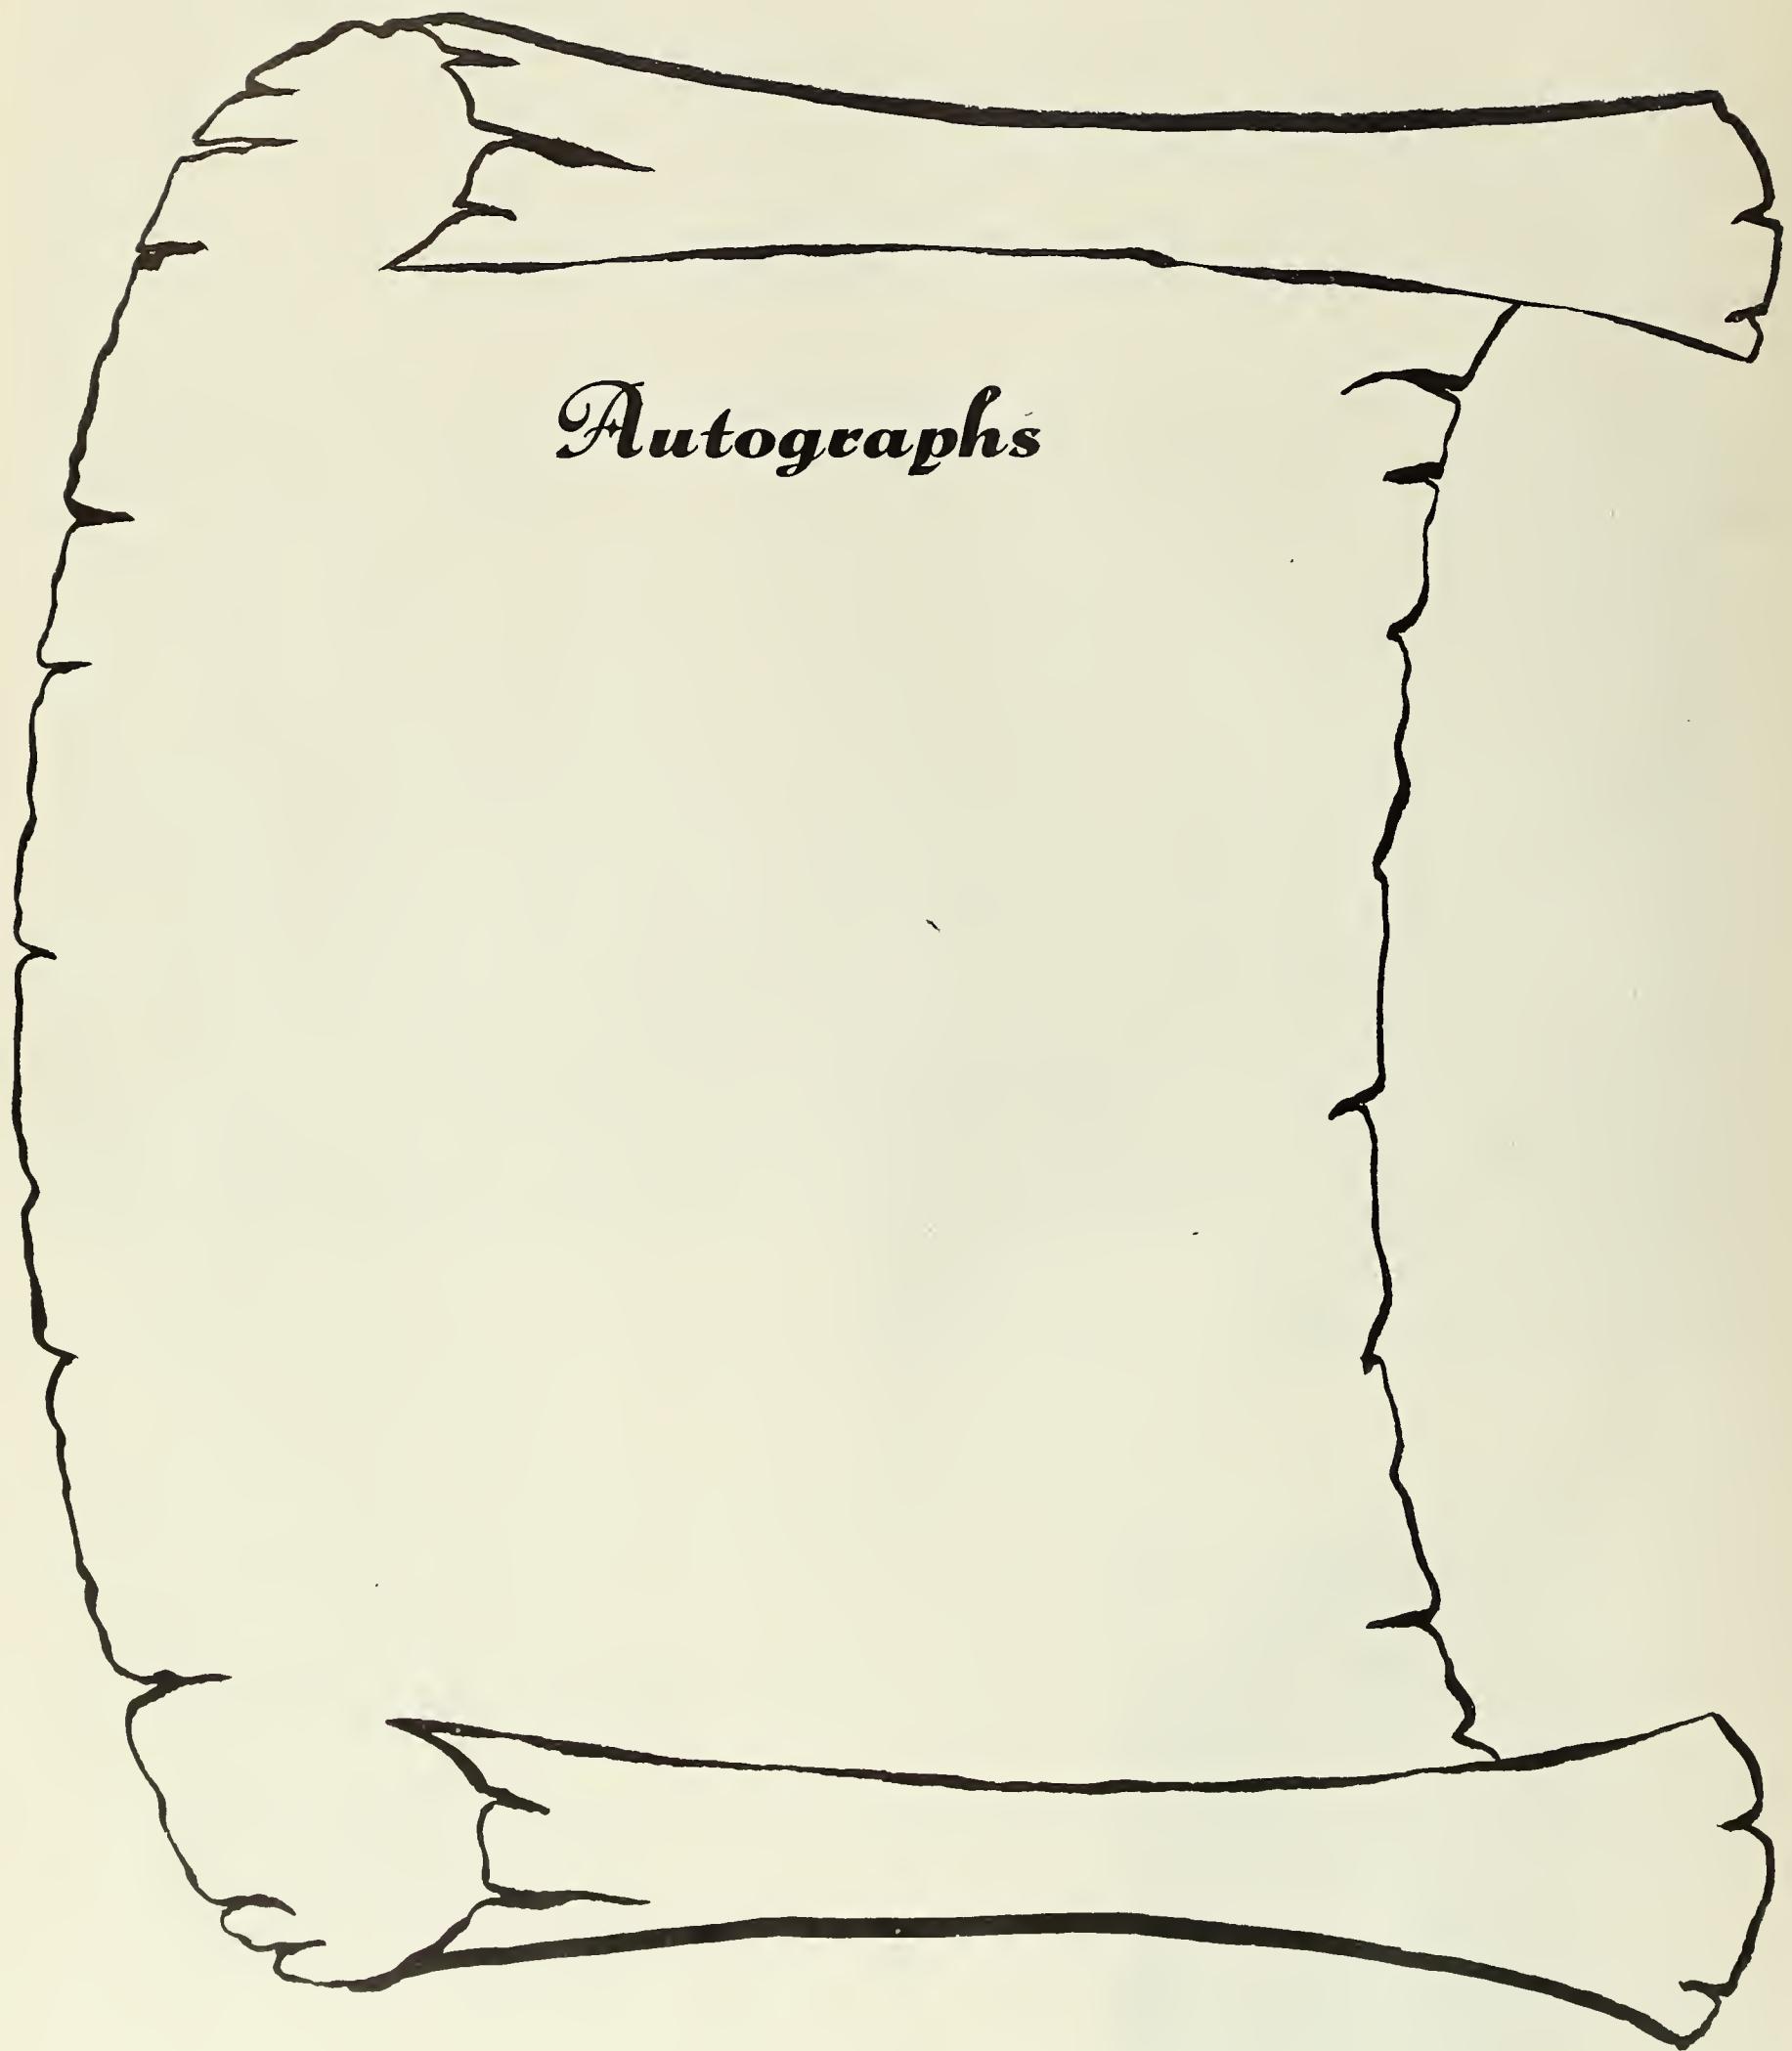

Miss Carolyn Martin, after having won the title of Miss New Bedford Tech, went on to capture the title of Miss Seafood Tournament.

This year is the first year that one of our New Bedford Tech girls has won since the Seafood Tournament Queen's Contest began in 1959. Although the Tournament honors went to Guilford College we can be proud that Miss Martin won the Queen's honors.

After receiving the honors Carolyn hurriedly changed into her cheerleading outfit. She is also the Secretary of Tech's Women's Club and a member of the Newman Club. Carolyn has taken painting lessons for a year and she also enjoys ice skating.

Carolyn is a sophomore in the Business Administration Department and plans to major in accounting next year. Eventually she plans to teach high school English.

The judges for the contest were the four coaches who represented their teams. They were: William Doyle, representing New Bedford Tech; Jerry Steele, Guilford College; Bill Pegram, Hampden-Sydney; and Gilmette, representing Bridgewater.
